

Data Privacy Policy

Purpose

This policy defines how candidate and organizational data is collected, processed, stored, and protected within HireGuard AI.

Data Collected

The platform may process:

- resumes
- names
- emails
- phone numbers
- skills
- work history
- governance metadata
- workflow interactions

Data Protection Measures

Sensitive data protection includes:

- PII masking
- encryption
- role-based access
- secure database storage
- audit logging

Access Control

Only authorized users may access candidate information.

Administrative access must be monitored and logged.

Data Retention

Candidate data retention periods must comply with organizational and legal requirements.

Expired data should be archived or deleted securely.

Third-Party Services

External AI services and APIs must comply with privacy and security requirements.

User Rights

Candidates may request:

- access to their data
- correction of inaccurate data
- deletion requests where legally applicable

Security Monitoring

The platform must monitor for:

- unauthorized access
- suspicious activity
- governance anomalies
- data leakage risks

Compliance

The system should support compliance with:

- GDPR
- enterprise security policies
- responsible AI governance frameworks
